## Contents

### Special Issue (Part 2 of 3): Current Directions in Expertise Research

136-143     **Statistical and Methodological Considerations for Research on Expertise: Remedies from Open Science and the Reproducibility Crisis**

Samuel T. McAbee

Department of Psychology, Bowling Green State University

144-154     **The (Sport) Performer-Environment System as the Base Unit in Explanations of Expert Performance**

Duarte Araújo<sup>1</sup> and Keith Davids<sup>2</sup>

<sup>1</sup>CIPER, Faculty of Human Kinetics, University of Lisbon

<sup>2</sup>Center for Sports Engineering Research, Sheffield Hallam University

155-161     **The Role of Long-term Working Memory and Template Theory in Contemporary Expertise Research**

Peter F. Delaney

Department of Psychology, University of North Carolina at Greensboro

## Regular Articles

162-180     **The Role of Informal, Unstructured Practice in Developing Football Expertise: The Case of Brazilian Pelada**

Luiz Uehara<sup>1</sup>, Chris Button<sup>1</sup>, Duarte Araújo<sup>2</sup>, Ian Renshaw<sup>3</sup>, Keith Davids<sup>4</sup>, and Mark Falcous<sup>1</sup>

<sup>1</sup>School of Physical Education, Sport and Exercise Sciences, University of Otago

<sup>2</sup>CIPER, Faculty of Human Kinetics, University of Lisbon

<sup>3</sup>Faculty of Health, School of Exercise and Nutrition Sciences, Queensland University of Technology

<sup>4</sup>Center for Sports Engineering Research, Sheffield Hallam University

181-183     **Commentary on Gobet's "The Future of Expertise Research: The Need for a Multidisciplinary Approach"**

Stuart Dreyfus<sup>1</sup> and B. Scot Rousse<sup>2</sup>

<sup>1</sup>Department of Industrial Engineering and Operations Research, University of California, Berkeley

<sup>2</sup>Department of Philosophy, University of California, Berkeley

184-186     **Reply to Dreyfus and Rousse (2018)**

Fernand Gobet

Department of Psychological Sciences, University of Liverpool
